
RIETMANN
IBERICA

RIETMANN

Since 1967, Rietmann has been an internationally recognised player in the bakery, confectionery and snacking industry, particularly for its know-how in the field of improvers and made-to-order mixes.
Since 2014, we have been present on the Spanish market with exclusive, trendy products for wellness and fitness, as well as different ranges for speciality breads and pastries.
We have expanded the Nutri Score to our entire range of products since 2019, and we also propose original concepts, for those who want them, for the garnish, the bread sachets and the way of preparation.
We also offer, as an additional option, advertising that bakers can place in their premises, posters and flyers that can be personalised and distributed. We also propose product demonstrations at points of sale.

PROTEIN AND LOW CARB MIXES

A nutritional revolution

RIETMANN's protein and low-carb mixes will enable you to meet the expectations of your health-conscious customers in search of a better diet, or followers of the ketogenic diet (less carbs, more protein).

The Original Protein Bread range allows you to make delicious breads, sandwiches, burgers and crackers, with nutritional values that are low in carbohydrates and high in protein and fibre.

The Original Protein Bread won the TOP SANTE 2021 award in the nutrition category.

THE ORIGINAL PROTEIN BREAD

Nutritional benefits

Reduced carbohydrate content 5%
High dietary fiber
Long shelf life of baked bread
High in vegetables protein 28%
Source of omega 3 fatty acids

Ideal for

People concerned about their health and well-being
People In weight control or weight loss programmes
People With type 2 diabetes
Vegetarian and vegan people
Sporty people (to gain muscle mass)

Main ingredients

Protein mixture (wheat protein, soy protein), soy bean groats, linseed, sunflower seeds, soy flour, whole-wheat flour, wheat bran, apple fiber , sesame, salt, barley malt flour.

Use

Preferably consumed during breakfast (toasted is excellent), or at dinner as a side dish spread on toast.

Product packaging

25 kg bag
Suggested options: sunflower seeds, sesame seeds, and golden flax seeds (page 29)
POS (advertising at points of sale)

ALSO AVAILABLE IN COOKED FROZEN FORM

LOW CARBOHYDRATE CONTENT | HIGH PROTEIN | SOURCE OF OMEGA 3 FATTY ACIDS | LONG SHELF LIFE | LOW IG 24,6 | NUTRI-SCORE A B C D E

Recipe

The Original Protein Bread Mix	10 kg
Yeast	300-400 g
Water (30ºC)	8,3 l

Kneading

Spiral mixer
Slow speed: 10 min.
Fast speed: 15 - 18 min.
Knead until a smooth and homogeneous dough is obtained.
Dough temperature around 28 - 30°C
Fermentation: no

Instructions

Shape 450 g buns
Cover the top with The Original Protein Bread seeds mix, and place in greased baking mould
Fermentation: 30 - 45 min. at 32°C

Cooking

Cooking time: 50 - 60 min.
Deck oven: 210°C. Falling heat 190°C
Rotary oven: 210°C steam oven.
Falling heat 160 - 170°C

ENSABA

A spongy/ fluffy variant of the famous The Original Protein Bread bread with a lighter, more tender, airier crumb and fewer grains. Reduced in carbohydrates but always rich in protein and fibre.
Ideal accompaniment for dietary snacking and especially for older customers with chewing problems.

Type of bakery

Can make rolls, baguettes and sandwich bread.

Main ingredients

Protein mixture (wheat protein, sunflower seed flour, soy protein), whole wheat flour, soy meal, wheat bran, flax seeds, soy flour, linseed, oat fiber, salt.

Product packaging

25 kg bag
Suggested options: labels, recipes, point-of-sale advertising (POS)

Recipe

Ensaba Mix	10 kg
Yeast	300 g
Water	9 l

Kneading

Spiral mixer: slow speed: 6 min
fast speed: 6 - 10 min.
Knead until a smooth and homogeneous dough is obtained.
Dough temperature around 26 - 28°C
Fermentation: 10 min

Instructions

Weight:
Rolls: 70gr
Baguettes: 150gr
Sandwich: 120gr

Fermentation: about 40 - 55 min.

Cooking

20 min. max. at 200 - 220°C
After 2 minutes of cooking, open the ventilation until the end of cooking.

SMART PROTEIN

Main ingredients

Protein mix (wheat protein, sunflower seed protein, pumpkin seed protein, soy protein, lupine protein), linseeds, soy flour, soy grits, wholemeal wheat flour, wheat flour, sunflower seeds, wheat bran, apple fibre, salt, barley malt flour, inactive yeast.

Type of bakery

Can make sandwich bread, rolls and hamburger buns.

Product packaging

20 kg bag

ALSO AVAILABLE IN COOKED FROZEN FORM

LOW CARBOHYDRATE CONTENT

HIGH PROTEIN

NUTRI-SCORE A B C D E

Recipe

Smart Protein Mix	10 kg
Yeast	400 g
Water	8,5 l

Kneading

Slow speed: 6 min.
Fast speed: 6 min
Dough fermentation: not necessary
Dough weight: 75-85 g burger bun
65-75 g rolls
Fermentation of the buns: 40-50 min., then flatten slightly.

Cooking

Deck oven : 230-200°C for 26-28 min. (with a little steam)

PROTEIN CRACKER

Nutritional benefits

Reduced carbohydrate content
High fibre
Long shelf life
High protein

Ingredients

Sunflower seeds, linseeds, wheat gluten, oat flakes, sesame, dried glucose syrup, wheat bran, rapeseed oil powder, milk protein, sunflower lecithine, wheat starch, rapeseed oil, salt, malt flour, dextrose, dried rye sourdough, yeast extract.

Product packaging

Recommendations:
Packed in packs of 120g.

The Spay & Bake kit consists of:
Stainless steel grill
5 teflon-coated plates of 60 x 40 cm.

Also available as a finished product in 120 g bags (12 bags per box).

Recipe

Protein crackers mix
Water-filled spray

Economical

A Spray & Bake grill allows you to transform 250 g of mixture into 250 g of crackers.

Instructions

Place baking paper on baking sheet and spray well with water.
Sprinkle the mixture and spray with water to make it moist enough.

Cooking

16 minutes cooking at 160ºC
Apart from the oven, no other machines are needed.
Break the sheet of biscuits (crackers) into small squares.

SOFT PROTEIN

Main ingredients

Protein blend (wheat protein, soy protein, lupine protein), soy flour, wheat flour, whole wheat flour, soy grits, soy bran, sugar, oat fiber, salt, inactive yeast.

Type of bakery

Can make sandwich bread, rolls and hamburger buns.

Product packaging

10kg bag

CONVENTIONAL PREMIXES

Rietmann offers a wide range of bases and premixes with 10, 20, 50 or 100% utility, in response to traditional market demand (wholemeal bread, country bread, rye bread, maize bread, bread with quinoa grains, with chia grains, etc.) to produce bread, rolls or baguettes. Our mixes are made from 100% French wheat flour.

QUINOETTE

THE QUINOA BAGUETTE WITH MILLENARY BENEFITS

Mix also available in organic (Bio) quality (see page 41).

Quinoa, cultivated for thousands of years in South America, was still little known to the majority of the public until 2013. Since then, quinoa has been used in various fields: chocolate, biscuit, vodka, beer, ice cream. Quinoa ‚' products are offered by all the (medium-sized and large companies - supermarkets and hypermarkets) and specialised shops. Recommended in salads or as a side dish by many „healthy" recipes and weight loss programmes. Strangely, the offer in bakeries was very poor. In January 2015, Rietmann created the quinoa bread, muffin and baguette mix.

Main ingredients

French wheat flour, flax seeds, puffed quinoa, quinoa flakes, pumpkin seeds, wheat germ flour, buckwheat semolina.

Product packaging

25kg bag
Suggested options: semolina topping (p. 30), baguette sachet, point-of-sale advertising (POS)

Nutritional benefits

Quinoa is low in fat, source of iron and vegetable protein. It contains the main amino acids essential for life.

Available in pre-cooked frozen, conventional and organic (Bio) forms (contact us).

ALSO AVAILABLE IN COOKED FROZEN FORM

SOURCE OF FIBER

100% UTILITY

NUTRI-SCORE A B C D E

100% French wheat flour

Recipe

Quinoette mix 100% . . . . . 10 kg
Yeast . . . . . 120 g a 300 g
Water . . . . . 6,5 a 7 l

Kneading

Spiral mixer: slow speed: 4 min
fast speed: 7 - 9 min.
Dough temperature around 23-26°C
Fermentation (depending on method) about 30-60 min.

Instructions

Mould a baguette and place it with the seams upwards (tourne à gris) on a sprinkled layer of durum wheat semolina.

Cooking

Bake at 240°C
Falling heat with steam
Baguettes: 25 to 30 min. baking time

DELICHIA

SEED-RICH MIX (CHIA, SUNFLOWER, PUMPKIN, FLAX) FOR CRUSTY BAGUETTES AND BREADS WITH A BEAUTIFUL GOLDEN CRUMB.

Seeds, especially chia seeds, are considered «superfoods» because they provide polyunsaturated fatty acids from the omega-3 family, which protect our cardiovascular system and effectively help regulate our gastrointestinal transit.

Product packaging

25kg bag
Suggested options: baguette sachets, point-of-sale advertising (POS).

Fermentation: depending on the method

Cooking

Deck oven (à sole) +/- 240°C
Rotary oven: 220°C
Cooking time: 25-27 min for baguettes

SPELT & HONEY

Triticum spelt, is an ancient cereal grain that during the Middle Ages was the vital crop in Europe. Over the years it was replaced by modern wheat (Triticum aestivum).
The grain hasn't been crossed with any other species of wheat, making it purer than most modern wheat. In whole-grain form, it provides more essential amino acids, vitamins, and minerals.

Main ingredients

Spelt flour (54%), wholemeal spelt flour, sunflower seeds, wheat gluten, lupine grits , sesame, spelt flakes, honey powder, barley malt flour.

Type of bakery

Can make rolls, baguettes and bread.

Product packaging

25kg bag

Nutritional benefits

Spelled is high in iron

Fermentation: about 50 min

Cooking

240-220°C falling heat 40-45 min.

JACK´SON

WHOLE GRAIN AND CEREAL BREAD

Source of fibre, minerals and vitamins. The original Rietmann‘s Volkornbrot. The quality of freshness in a nice bread with a strong personality.

Main ingredients

Rye wholemeal flour, wheat wholemeal flour, spelt wholemeal flour, 100% French wheat flour, sunflower seeds, flax seeds, pumpkin seeds.

Product packaging

10 kg bag

100% UTILITY

NUTRI-SCORE A B C D E

100% French wheat flour

Recipe

Jack'son mix 100%	10 kg
Yeast	160 g
Water (approx.)	6,8 - 7,2 l

Kneading

Spiral mixer: slow speed: : 10 min
fast speed: 7 min.
Dough temperature around 28-30°C
Resting time: 20 min.
Weight of the buns: 600 g.

Optional

Place the top of the bun in a mixture of decorative seeds (pumpkin seeds, potato flakes, sesame, yellow flax seeds, brown flax seeds, maize seed). Available on request.
Place the buns in a rectangular mould (275 mm x 100 mm x 95 mm).
Leave to ferment for 45-60 min.

Cooking

Place in the oven at 240°C and then lower it to 200°C, for 55-60 min.
After baking, immediately remove the loaves from the moulds and let them chill.

COMPLETE BASE

Main ingredients

Wheat bran, whole wheat flour, malt flour (barley, wheat).

Product packaging

10 kg bag

10% UTILITY

For soaking

Complete Base . . . . . 500 g
Water . . . . . 0,250 l

Soaking

Recommended soaking time: 30 min. to 3 hours.

Use

Fresh bread dough: 7,6 kg
Full base soaking for bread 10%: 750 g

Instructions

Spiral mixing: slow speed: 3 min
fast speed: 2 min.
Dough temperature: 24-26°C
Fermentation: 15-20 min.

Cooking

230°C with steam

Recipe

Complete Base . . . . . 1 kg
Whole wheat flour . . . . . 9 kg
Water . . . . . 6 - 6,2 l
Yeast (depending on method) . . . . . 150 - 300 g
Salt . . . . . 180 l

Kneading

Ideally soak (full base + total amount of water) for 20 min.
Slow speed: 4 min.
Fast speed: 7 min.
Dough temperature around 24-25°C
Fermentation: 20 min.

Instructions

Usual method, laminated (lamage: incisions on the top) before fermenting, with the possibility of topping the whole base.

Cooking

Baking with falling heat: 240-220°C for 35 min. (400 g buns)

TOASTED CEREAL BASE

This toasted cereal base allows you to make all kinds of breads with refined flavours as well as pizza dough and viennoiseries (pastries).

Main ingredients

100% French wheat flour, toasted sesame, linseed, sunflower seeds, poppy seeds, wheat gluten, malted wheat flakes, millet.

Product packaging

10 kg bag

20% UTILITY

100% French wheat flour

For soaking

Toasted cereal base	1 kg
Water	0,5 l

Soaking

Recommended time: 30 min. to 3 hs.

Use

Fresh bread dough: 8 kg
Soaking of cereal base: 1,5 kg

Instructions

Spiral mixing: slow speed: 1 min
fast speed: 2 min.
Dough temperature: 24-26°C
Fermentation: 15-20 min.

Cooking

220°C with steam

Recipe

Toasted Cereal Base	2 kg
Wheat flour	8 kg
Water	6,3 - 6,5 l
Salt	180 - 200 g
Yeast	100 - 200 g

Tip

In a bowl, soak the toasted cereals in the total amount of water. Weigh the other ingredients on top of the mixture, so that the preparation time is optimised to improve the quality.

Kneading

Spiral mixer: slow speed: 5 min.
fast speed: 7 - 9 min.
Dough temperature around 24-26°C
Fermentation: 20 min (or deferred fermentation in a bowl for 24/48 hrs in a cold room)

Cooking

240°C with steam

TRITICUM

Mix also available in organic (Bio) quality (see page 43).

3 in 1

Triticum is a multi-purpose mix: real rye bread, crusty rye bread or country bread with character.

Product packaging

10 kg bag

100% UTILITY 50% UTILITY 30% UTILITY NUTRI-SCORE A B C D E

Recipe

Triticum mix	10 kg
Yeast	300 g
Water	6,7 - 7 l

Kneading

Spiral mixer: slow speed: 10 min.
fast speed: 2 min.
Dough temperature: 26-28°C

Instructions

Weigh out 500 or 600 g buns and make a ball with the seams facing upwards (tourne à gris), and place face down (clé dessous) on a layer of flour.
Fermentation 45-50 min at 26-28°C

Cooking

Turn the buns face up (clé dessus) on a napkin.
Place in the oven at 250°C with falling heat.
230°C with steam (deck oven -four a sole-)
For breads with well marked incisions, give it a little steam when placed in the oven, and a lot of steam 3 minutes later.
Baking time 45 min. for 500 g loaves

vegan&moi

the new generation of meat

A tasty experience reduced in fat, cholesterol free, rich in fibre and protein.

Main ingredients

Protein mix (49%) (textured pea protein), rice extrudate, methyl cellulose; corn semolina, rapeseed oil, salt, sunflower seed flour, spice(s) [cumin,coriander], beetroot juice powder; instant-caramel powder, herb(s), smoke flavouring, parsnip powder, citric acid; natural flavouring, onion powder.

Product packaging

4kg containers

NUTRI-SCORE A B C D E

100% UTILITY | HIGH PROTEIN | HIGH FIBRE | 100% VEGAN | LOW FAT

Recipe

Vegan&moi mix	100 g
Water	0,200 l

Steps to follow

Place 100 g of mix in a bowl
*Add necessary ingredients: onion, garlic, pepper, condiments (e.g. recipes such as meatballs, empanadas, among others)

Add 200 ml of cold water every 100 g.

Put the mixture in the refrigerator for 30 minutes and let it sit to absorb the liquids.

Once hydrated, wet your hands and form the desired product.

Put oil in a non-stick container and wait for it to heat up before placing the product.

Cooking

Medium heat for 3-4 minutes

**In the case of incorporating vegan meat into other recipes (e.g. Lasagna) that require final cooking, it isn't necessary to cook the product beforehand. The cooking it will have with the rest of the preparation is enough.*

BIO PREMIXES

Consumer demand for healthier food made from pesticide-free products, produced with respect for the environment and biodiversity has been growing steadily in recent years. In order to meet this demand, and by committing itself to an ecological path to preserve future generations, Rrietmann has strengthened (extended) its organic range of premixes and improvers by putting its know-how at the service of organic raw materials selected, mixed and packaged with the utmost care.

QUINOETTE

Quinoa, which has been cultivated for millennia in South America, was still little known to the general public until 2013. Since then, it has been used in many sectors: chocolate, biscuits, vodka, beer and ice cream. All supermarkets, wholesalers and specialised shops offer „quinoa“ products. It is recommended in salads or as a side dish by many „healthy“ recipes or for „weight loss“ programmes. Surprisingly, the offer in bakeries was almost non-existent. In January 2015, Rietmann created the quinoa mix for bread, bread rolls (petit pain) and baguettes.

Product packaging

10 kg bag

Nutritional properties

Quinoa is low in lipids, source of dietary iron and vegetable protein. It contains the main amino acids essential for human life.

ALSO AVAILABLE IN COOKED FROZEN FORM
